

Introducing Bizagi AI Packages

Thanks to Bizagi's cloud-native architecture on Microsoft Azure, the team has been able to drive rapid innovation by seamlessly embedding the Private OpenAI service into Bizagi's already powerful automation platform.

These capabilities have unlocked a wealth of new possibilities, enabling organizations to transform processes on an even larger scale. To help new and existing customers quickly capitalize on these advancements, Bizagi has developed two tailored packages that will get companies up and running with AI in just a matter of weeks.

Ada in Bizagi Apps, which provides conversational analytics with actionable insights

Bizagi's AI Agents, which can be built into any process to simplify routine work and boost productivity

AI Ignite

New Customers

This bundle of product and services is set up to go live within 7 weeks. It is perfect for new customers looking to incorporate AI into their upcoming process automation initiatives.

- ⦿ Promotional bundle of Product & Professional Services
- ⦿ Go-Live with AI Agents or AI Assistants within 7 weeks!
- ⦿ Scale your AI program safely across the enterprise

AI Kick Start

Existing Customers

This expert services package provides an opportunity for existing customers to get guidance from the team to design and configure Bizagi's AI technology and identify the best place to start.

- ⦿ Professional Services package to provide AI design and configuration help
- ⦿ Maximize use of AI across your Automation program
- ⦿ 2 week cost effective engagement

If you would like to learn more about these AI packages, please visit www.bizagi.com/contact-us or ask any member of the Bizagi team.
